*For Premium and Textured colors, we recommend all materials be ordered together as paint color may vary order to order.
**R-Loc in Pewter is only available in Texas with standard lead times, but may be available in some other regions with extended lead times.
***7.2 Panels are available with standard lead times from Cedar Hill, TX and extended lead times from Seguin, TX, Lowell, AR, and Jasper, AL.
†Copper Metallic panels must be installed in the same direction. See directional arrows or stickers provided on your panels. Color variation between orders is normal and not cause for rejection.
‡Weathering and appearance variation, including color, sheen, and spangle, is common in non-painted materials and is not a cause for rejection. For consistent appearance, choose a paint-finished product.

Colors on this chart are close representations of actual metal color, limited by printing and viewing conditions. Color matching optimized for outdoor viewing. Customers should view an actual material sample before making a final color selection.

Contact your sales representative for accurate pricing.
